RECEPTION INFORMATION SHEET – FEES

Dear Parents,

We wanted to let you know about some fantastic news for the Reception class with regards to our fee structure.

Usually a child in reception loses the Government grant in the term following their 5th Birthday. Hence if your child was born in October your final grant payable would be for the Autumn Term.

We felt that it would help all our parents out if we could ensure that the termly fees remained the same for the whole of the Reception year. St Joseph's has therefore decided to match the Government Early Years Grant for the terms following the discontinuation of Government Funding.

Using the example above, for a child born in October (using next years fees but this years Grant, as we don't have a figure for next years grant as yet) :

Autumn Term £1995 Full Term Fees – £595 Early Years Grant = £1400

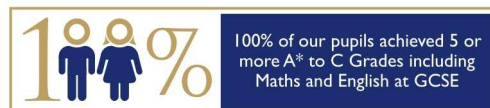

Spring Term: £1995 Full Term Fees – £595 St Josephs Funding = £1400

Summer Term: £1995 Full Term Fees – £595 St Josephs Funding = £1400

Obviously the above figure is a little fluid at the moment as we don't yet know the level of Government funding, however, we can guarantee that you will pay no more than the above fee for Reception Year 2010/11 and it could be a little less.

We hope that this shows our wish to provide you with the best education at a competitive price and is a small thank you to you for the commitment you have shown to this wonderful school.

Please contact David Mitchell, the bursar, if you have any questions.

St. Joseph's School Launceston is a Company limited by guarantee registered in England and Wales 01780521 and Registered Charity Number 289048
